

# *Society of Nano Science and Technology*

**3<sup>rd</sup> Meeting on Society of Nano Science and Technology will be held at Sendai Civic Auditorium in Sendai, Japan, May 8-10, 2005.**

Society of Nano Science and Technology is organized so that researchers and technicians who work at the frontier of science and technology of next generation be brought together to further the recognition of importance of nano science and technology in future and form an organic cooperative relationship among multiple research fields such as basic science, advanced electronics, life science, precision mechanical engineering, and so on.
